

Milltown Reservoir Public Meeting

Monday, July 17, 2006

6:30-8:30 pm

Bonner School Gym

EPA, the US Army Corps of Engineers, and its contractors will describe the work planned for the bridges over the Blackfoot River in Milltown. These include the I-90 bridges, Highway 200 bridge, and pedestrian bridge. Montana Rail Link also has work planned for the railroad bridge. Work is scheduled for the I-90 and Highway 200 bridges this fall.

Project staff will be available and there should be plenty of time for questions.
